

Usage & Care Instructions

Decorative Metal Planter

FOR INDOOR DECORATION ONLY

⊘ DO NOT PLANT DIRECTLY

⚠️ WRONG USE

✗ Direct Soil / Water Contact

Never place soil, plants, or water directly into the metal planter. Standing water and soil moisture will cause irreversible rust, water stains, and discoloration, permanently damaging the metal finish.

✓ CORRECT USE (DOUBLE POTTING)

✓ Inner Nursery Pot + Saucer

1. Plant your greenery in a plastic/ ceramic nursery pot with drainage holes.
2. Place a saucer under the inner pot to catch excess water.
3. Nest the entire inner pot + saucer set into the decorative metal planter.

Immediate Spill Wipe

Clean spills with a dry cloth instantly to prevent marks.

Soft Cloth Only

Use a lint-free cloth for dusting; avoid harsh chemicals.

Avoid Sunlight

Keep away from prolonged direct sun to prevent fading.

No Standing Water

Ensure the planter remains dry inside at all times.
